PROJECTS

Prime-Bond Investment Website | [website](#) | [Source Code](#) |

July 2025 - NOV 2025

- Built Prime Bond investment platform with Node.js, Express.js, React.js, MongoDB, user registration, KYC via Multer, and investment plans.
- Developed user/admin dashboards using React.js, Tailwind CSS, Material-UI, with CRUD APIs via Express.js and Mongoose.
- Integrated CCAvenue, NOWPayments for card, crypto, cash, bank transfers, and auto receipts with PDFKit.
- Automated ROI calculation/payouts with Node-Cron, bank setup for ROI, and Nodemailer for email notifications.
- Secured with jsonwebtoken, bcrypt, Helmet, cors, axios, dotenv; admin manages investments, ROIs, users.

Wish I Club Membership Website | [website](#) | [Source Code](#) |

MAR 2025 - JUN 2025

- Individually built using MERN Stack a premium membership platform with 10 card packages, where users register first to book.
- Developed the entire system, including user/admin dashboards, booking, and REST APIs with full CRUD.
- Integrated Stripe and NOWPayments for card and crypto payments.
- Implemented SMTP email system for verifications and notifications.

PrimeWish.ae E-Commerce Platform | [website](#) | [Source Code](#) |

JAN 2025 - MAR 2025

- Built 80% of a custom e-commerce platform using Node.js, Express, and MongoDB for bulk trading of herbs, spices, and Ceylon tea etc.
- Integrated CCAvenue payment gateways for secure transactions (L/C, T/T).
- Developed backend with admin dashboard, auth, cart, checkout, auto-receipts, and email notifications.
- Designed responsive, user-friendly dashboard for enhanced customer experience.
