PROFESSIONAL SUMMARY

Software Engineer and Full Stack Developer with 3+ years of experience and a Master's degree in Computer Applications (MCA), specializing in iGaming, fintech, and investment platforms. Proficient in PHP with strong hands-on expertise in React.js, Node.js, SQL, and MongoDB. Proven track record delivering multi-tenant platforms for international clients, integrating payment gateways, third-party gaming provider APIs, and automation workflows (n8n). Skilled in leveraging AI-assisted development tools (Claude Code, GitHub Copilot, OpenAI Codex, Google Antigravity) to accelerate delivery and improve code quality, with strong experience in server configuration, CORS/multi-domain hosting, and Agile collaboration across UAE and international markets.

WORK EXPERIENCE

Full Stack Engineer | Velnix Technologies, Dubai, UAE

Jan 2026 – Present

- Developed and enhanced two live iGaming platforms (Velplay365 and BoldVelocity) built on a shared PHP/Node.js/React.js architecture with distinct frontend designs for two separate international clients.
- Adopted AI-assisted development tools (Claude Code, GitHub Copilot) to speed up feature development, refactoring, and code review across both platforms.
- Configured and maintained a multi-domain server environment (Nginx + Apache + aaPanel/OpenLiteSpeed), resolving CORS policies, subdomain vhost routing, PHP include-path errors, and API isolation issues.
- Built and maintained PHP backend services alongside the Node.js stack, handling API callbacks, bet ledger reconciliation, and provider integrations; integrated third-party gaming APIs with n8n automation.

Full Stack Developer | Wish Group, Dubai, UAE

Nov 2024 – Nov 2025

- Completed 4 full-stack website projects using Node.js, Express.js, React.js, MongoDB, Next.js, TypeScript, and Agile methodology.
- Developed an investment platform with booking, admin panels, and multi-channel payments (card, crypto, UPI).
- Delivered live client projects: Prime-Bond Investment, wishclub.com, primewish.ae, wishbrands.lk, wishholdings.com, and wishgroup.ae.
- Managed client meetings and deployments, ensuring secure features, satisfaction, and Agile workflows across cross-functional teams.

Full Stack Mobile App Developer | Maitexa IT Solution, Kerala, India

Jan 2024 – Nov 2024

- Developed scalable cross-platform apps using Flutter and Dart with Node.js, Express.js, and MongoDB backend services.
- Integrated Firebase and third-party REST APIs for authentication, real-time data, and external services; designed responsive Material Design UI following MVC/MVVM architectures.

KEY PROJECTS

Velplay365 iGaming Platform [\(link\)](#)

Jan 2026 – Present

- Enhanced and developed new features for an existing PHP/Node.js iGaming platform, improving scalability and overall system performance.
- Redesigned and optimized the UI for better user experience and usability.
- Integrated game provider APIs to enable seamless gaming services and external platform connectivity.
- Implemented role-based access control and improved admin management features for better monitoring and control.
- Optimized the platform to handle higher traffic and ensure smooth user interactions.

BoldVelocity iGaming Platform [\(link\)](#)

Jan 2026 – Present

- Built and launched a second iGaming platform for an independent client on a multi-tenant-style setup sharing the Velplay365 core backend, with distinct frontend UI/UX, theming, and feature flags.
- Resolved multi-domain hosting challenges (CORS mismatches, vhost misconfiguration, PHP include-path errors) and ensured secure separation of databases and API endpoints between clients.

Prime-Bond Investment Website [\(link\)](#)

Aug 2025 – Nov 2025

- Built the Prime Bond investment platform with Node.js, Express.js, React.js, and MongoDB, including registration, KYC via Multer, and investment plans; developed dashboards with React.js, Tailwind CSS, and Material-UI.
- Integrated CCAvenue and NOWPayments for card, crypto, cash, and bank-transfer payments with auto-generated PDFKit receipts; automated ROI payouts (Node-Cron) and an AI chatbot with n8n and Google Gemini.

Wish I Club Membership Website [\(link\)](#)

Mar 2025 – Jun 2025

- Individually built a premium MERN-stack membership platform with 10 card packages, registration-first booking, full user/admin dashboards, and CRUD REST APIs.
- Integrated Stripe and NOWPayments for card and crypto payments, plus an SMTP email system for verifications and notifications.

EDUCATION

Master of Computer Application (MCA) — APJ Abdul Kalam Technological University, Kerala, India 2022 – 2024

BSc Computer Science — University of Calicut, Kerala, India 2018 – 2021

TECHNICAL SKILLS

Backend: PHP (Proficient), Node.js, Express.js, NestJS, REST APIs

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript (ES6+), TypeScript

Databases: SQL, MongoDB, Firebase

AI-Assisted Development: Claude Code, OpenAI Codex, Google Antigravity, GitHub Copilot, Cursor — AI pair-programming, automated code review, rapid prototyping, debugging

Mobile: Flutter (cross-platform apps for Android & iOS)

Cloud & DevOps: AWS (EC2, S3, IAM), Docker, Nginx, GitHub Actions, Jenkins (basic)

Automation: n8n (Workflow Automation, API Orchestration, Webhooks)

Payment Gateways: Stripe, PayPal, CCAvenue, NOWPayments (Card, UPI, Net Banking, Crypto)

AI & LLM: OpenAI & LLM APIs, Prompt Engineering, Chatbots/Agents, RAG, Vector DBs

Architecture & State: MVC, MVVM, Clean Architecture, Redux, Redux Toolkit, Provider, BLoC

Methodologies: Agile, Scrum
